

Glossary of terms and abbreviations	<p>COEL – Characteristics Of Effective Learning CLL – Communication, Language and Literacy PD – Physical Development PSED – Personal, Social and Emotional Development UW – Understanding the World EAD – Expressive Arts and Design LIT – Literacy M – Maths Phonics – The way we teach children to read words using sounds (phonemes) assigned to letters or groups of letters (graphemes) HFW – High Frequency Words. The most common words in English – these are not always decodable using phonics. EYFS – Early Years Foundation Stage (Nursery and Reception) EAL – English as an Additional Language – children whose first language is not English, or who have a language that is not English as the primary spoken language at home. National Curriculum – The objectives and skills taught in years 1 to 6 KSI – Key Stage 1 – years 1 and 2 Tapestry – computer software used by staff in Reception and Nursery to record children’s development. This can be accessed by parents.</p>
Overview	<p>CLL & PD & PSED are the prime areas and as such run through all the other areas of learning (specific areas). Children need to be confident in these areas to reach their full potential in all areas of learning. COEL are embedded in all these areas, too.</p> <p>Classrooms will be set up to encourage independence (children know how to access resources), core muscle strength (standing at tables, lying on the floor, stretching to play, etc).</p> <p>The curriculum model will begin on entry to our Nursery or Reception classes and follow through to the end of Reception. At the end of each term will be a curriculum goal – things we want the children to achieve in our setting and these will be planned through our medium-term plans and weekly plans. Any gaps in children’s learning will be identified through observations and adult led activities, and next steps put in place to deal with these. Some might be immediate interventions, while others might involve outside agencies and long-term interventions.</p>

Patterns			<i>I can talk about and identify the patterns around me</i> <i>I can extend and create ABAB patterns e.g stick, leaf, stick, leaf</i>	<i>I can notice and correct an error in a repeating pattern</i> <i>I can talk about patterns in events first, then, next, etc.</i>	<i>I am able to continue patterns with varying rules AB, ABB, ABBC</i>	<i>I can make and extend patterns</i> <i>I can recognise similarities and differences in patterns</i>

Nursery Maths

Assessments will take place 'in the moment' and in 'teacher led activities' and closing the gap time, will be given, to those children who need it to understand concepts before moving them on. End of term assessments will take place to ensure all children are working at ARE in line with the curriculum goals.

The first 3 weeks will be our settling in period and baseline and then the curriculum will start

Number Principles

1-1 correspondence - 1 number name for each object that is counted

stable order – know that numbers are said in a certain order

cardinal principle – number name assigned to the final object in the grp is total no of objects in that group

abstraction principle – understand anything can be counted, including sound and movement

order irrelevance principle – order we count in is irrelevant there will always be the same number
